

Founded in **1990**

The **1st** in Asia to have both UL and VDE accredited laboratories

4 professional production sites

40000+ high quality products

100+ countries and territories covered

DEGSON-Global Industrial Connector Manufacturer,
Providing Customized Solution To All Partners.

DCN 22-E01

Device Connectivity New Product Overview

As a professional manufacturer of connectors, DEGSON focus on technological innovation, interpret excellence with professionalism, and strive to develop various new solutions for industrial automation, new energy, smart building and other industries, and provide safe, convenient and reliable connection in the field of signal, data and power transmission!

Drive Connectors.....01-02
 Signal Connectors.....03-05
 Power Connectors.....06-09
 Smart Building Connectors.....10
 Ability and Service11-12

Drive Connectors

- With safe locking design , easy to plug/unplug and providing reliable connection.
- Different lock mechanism (side or top position) is available to meet size constraint and vibration requirement.

Power Connectors

- Rated current (up to 200A) to meet high-power device requirement.
- Original DLS(*Dual-Lever Spring*[®]) technology , realizing tool-free operation.
- Different configuration for PCB soldering process or Through-wall installation.

Signal Connectors

- Compact and high density(up to 48 poles), perfect for miniaturization and lightweight request.
- Suitable for THR and SMT soldering process.

Smart Building Connectors

- Compact size, enabling more flexibility and more connection in same space.
- Simplified design and high quality, providing easier and safer installation.

Device Driving Connectors- Servo connectors (9EDG Series)

Main features

- Self-locking function, locking acoustical alert, safe to use and reliable connection
- Spring-cage and innovative PUSH-IN spring wire termination are optional to meet different operating habits of customers
- Fixed foot structure of the socket greatly reduces the fault rate of operation
- Different locking structures are suitable for different device size requirements

Side Lock Series

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals
	9EDGKG-5.08	with side locking system	5, 6	5.08	16 IEC 14.5 UL (B) 10 UL (D)	160 IEC 300 UL (B) 300 UL (D)	/	Spring-cage connection	/

	9EDGRB-7.62	PCB header	3, 6	7.62	20 IEC 20 UL(C) 5 UL(D) 20 UL(F)	630 IEC 300 UL(C) 600 UL(D) 600 UL(F)	0°	/	/

Signal Connectors- High density connectors (15EDG, 2EDG Series)

Main features

- PUSH-IN spring connection technology for fast wiring, reducing the wiring time and costs
- High density structure from single to double layer, to meet the compact wiring for equipment miniaturization
- Rich product portfolio, varieties flange structures are used for different applications
- With function of mis plug-proof, preventing the mis-insertion between two or more products with the same poles

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals
	15EDGKNNHC-3.5	High density PCB plug	04-48	3.5	8 IEC 8 UL (B,D)	160 IEC 300 UL(B,D)	/	Push-in spring connection	/
	15EDGRHB-THR-3.5	PCB header, THR soldering	04-48	3.5	8 IEC 8 UL (B,D)	160 IEC 300 UL(B,D)	0°	/	UL, VDE

Signal Connectors- Compact terminal blocks (DG212 Series)

Main features

- PUSH-IN spring connection technology for fast wiring, reducing the wiring time and costs
- Compact structure, saving the installation space of equipment
- Suitable for SMT and THR soldering process

Power Connectors- Push-in terminal blocks (DG271 Series)

Main features

- PUSH-IN spring connection technology, for high performance compact equipment
- Full range of pitch products, support two wiring angles, wide application
- Cross section up to 35mm² (2 AWG), rated current up to 125A

THR Series

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals
	DG212V-THR-3.5	THR and Wave soldering	2-24	3.5	17.5 IEC 12 UL (B) 10 UL (D)	200 IEC 300 UL (B) 300 UL (D)	90°	Push-in spring connection	UL, VDE
	DG212R-THR-3.5	THR and Wave soldering	2-24	3.5	17.5 IEC 12 UL (B) 10 UL (D)	200 IEC 300 UL (B) 300 UL (D)	0°	Push-in spring connection	UL, VDE
	DG212S-THR-3.5	THR and Wave soldering	2-24	3.5	17.5 IEC 12 UL (B) 10 UL (D)	160 IEC 300 UL (B) 300 UL (D)	45°	Push-in spring connection	UL
	DG212V-THR-5.0	THR and Wave soldering	2-24	5.0	17.5 IEC 12 UL (B) 10 UL (D)	320 IEC 300 UL (B) 300 UL (D)	90°	Push-in spring connection	UL, VDE
	DG212R-THR-5.0	THR and Wave soldering	2-24	5.0	17.5 IEC 12 UL (B) 10 UL (D)	320 IEC 300 UL (B) 300 UL (D)	0°	Push-in spring connection	UL, VDE
	DG212S-THR-5.0	THR and Wave soldering	2-24	5.0	17.5 IEC 12 UL (B) 10 UL (D)	320 IEC 300 UL (B) 300 UL (D)	45°	Push-in spring connection	UL, VDE

SMT Series

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals
	DG212R-THR-3.5(150R)	SMT soldering	2-4	3.5	17.5 IEC 12 UL (B)	160 IEC 300 UL (B)	0°	Push-in spring connection	UL, VDE
	DG212R-THR-5.0(50R)	SMT soldering	2-4	5.0	17.5 IEC 12 UL (B) 10 UL (D)	320 IEC 300 UL (B) 300 UL (D)	0°	Push-in spring connection	UL, VDE

Power Connectors- Tool less connectors (*Dual-Lever Spring*[®])

Main features

- Comfortable and labor-saving *Dual-Lever Spring*[®] technology, fast wiring and tool free
- Pluggable and PCB type, support two wiring angles, wide application
- Independent test holes available, quick and convenient testing

PCB Terminal Blocks

Power Connectors- Barrier terminal blocks (High Current Series)

Main features

- Feed-through structure can efficiently solve the problem of electrical transmission between internal and external equipment
- Spliced structure is more convenient for stocking , faster delivery of samples and orders
- Providing multiple value-added services, including with cover structure to prevent dust , label for printing word , help customer solve the problem of wiring confusion

Barrier Series

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals

Smart Building Connectors- Construction and installation terminal blocks (DGBSC, DG220 Series)

Main features

- Suitable for connection of all types of conductors, safe and reliable connection
- With operation lever, easy to use and tool free
- Transparent housing, Direct visual inspection of wiring status, suitable for field wiring
- Independent test holes available, quick and convenient testing

DGBSC Series

Picture	Product family	Notes	No. of pole	Pitch(mm)	Current(A)	Voltage(V)	Connection direction	Connection technology	Approvals
	DGBSC-SG01/4-02P	Wire Connector	2	5.6	32 IEC	450 IEC 600 UL	/	Push-in spring connection	UL,VDE

Professional Ability

Value-added services

In order to meet the individual needs of customers, we can provide value-added services such as printing, colors, and empty space etc.

Color

Multiple colors can be selected and combined

Printing

Individual printing

Space

Increasing the safety distance through the empty space and clapboard

Coding star

Preventing the wrong insertion through the coding stars

Customized development

According to the different application scenarios and industry needs, we can provide the professional customized solutions for customers.

Metal parts

Different sizes and current can be customized

Connector

Different product structures including PCB type, pluggable type and barrier type can be customized

Connection technology

Multiple connection technology including screw and spring type can be customized

Excellent Service

Diversified and simple product selection

More than 40000 product specifications are applied in more than 10 industries, easy to find the suitable solutions.

Rich product types and complete certification

Online product selection and datasheet download

Online and offline 24h FAQs

Fast delivery

90% of universal products are achieved automatic assembly, sufficient safety stock has been established for 60% of standing product.

Automatic production line integrating assembly, inspection and packaging

Intelligent storage system, efficient connection between production and delivery

Manual assembly for quick response to small batches and samples

High quality and efficient product development

Rapid response capability from initial product concept to sample phase within two months, and we can quickly provide specialized, personalized and customized solutions according to the customer requirements.

More than 400 R&D engineers

First-class laboratory, providing performance data support

The world's top mold processing equipment to ensure mold quality
